CAREER OBJECTIVE

To build a successful career as a Full-Stack Web Developer by applying my knowledge of JavaScript, React.js, Next.js, Node.js, and MongoDB. I aim to continuously improve my technical skills, gain practical experience, and contribute to developing effective and user-friendly web applications.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS
Tools: Git, GitHub, VS Code, Vite, npm, Postman, MongoDB Atlas, Vercel
Interpersonal: Communication, Teamwork, Problem-Solving, Adaptability, Time Management, Willingness to Learn

PROFESSIONAL EXPERIENCE

UNESCO Dhaka Nov 2024 – Sep 2025
Junior Consultant – ICT Support 15 May 2025 – 30 Sep 2025
Volunteer – ICT Support 3 Nov 2024 – 3 May 2025

- Provided technical support to staff by troubleshooting computer hardware, software, printers, network connectivity, and other IT-related issues.
- Assisted with software installation, system configuration, IT equipment maintenance, and ICT infrastructure management.
- Supported digital tools, email systems, audiovisual equipment, and technical operations during official meetings, workshops, and organizational activities.

PROJECTS

StudioSpace – Creative Workspace & Studio Sharing Platform | Live Link | GitHub (Client) | GitHub (Server)
A marketplace where creators book photo studios, sound stages, podcast lounges and music suites by the hour, and hosts list and manage their own spaces with a full booking workflow.
Tech Stack: React, Vite, React Router, Tailwind CSS, Swiper, Firebase Authentication, Node.js, Express.js, MongoDB Atlas, Vercel

- Live-availability booking: booked hours are disabled and the server blocks overlapping slots, with a Pending / Confirmed / Completed / Cancelled status flow.
- Hosts get full CRUD on their own studio listings (private routes) with amenities, gallery images and imgbb image upload.
- Search, category and price filters and sorting on the Explore page, plus reviews with automatic rating calculation.
- Email/password and Google login (Firebase), token-verified API routes and a host dashboard for managing booking requests.

BazarDor – Daily Essential Commodity Price Tracker | Live Link | GitHub
A web app showing today's market prices of rice, lentils, oil, vegetables, fish, meat, eggs, milk and spices with price rise and fall trends, and a detail page with the lowest, highest and average price across markets.
Tech Stack: Next.js (App Router), Tailwind CSS, DaisyUI, BetterAuth, MongoDB, react-hot-toast

- Live price ticker under the navbar with a continuously scrolling list of items, prices and percentage change.
- Home page sections for the top 6 price increases and decreases, with category filtering and price sorting.
- Login-protected product detail page with lowest, highest and average price and a market-wise price table.
- Email/password sign in and sign up with BetterAuth, toast notifications, profile name update, responsive design, loading skeletons and a 404 page.

EDUCATION

Bangladesh University 2018 – 2022
B.Sc. in Computer Science & Engineering (CSE) | CGPA: 3.67 / 4.00

LANGUAGES

Bangla (Native) | **English** (Intermediate)
